

The TOP 12 plants for a blossoming vegetable garden

Encourage biodiversity in your vegetable garden! When you plant nectariferous flowers, you attract beneficial insects and help your fruit and vegetable plants: a win-win situation, for both insects and humans!

Our horticulturists' picks:

-  Perennial
-  Edible flowers
-  Suitable for containers

1 Culinary herbs*
Some are perennials.

2 Common borage
Borago officinalis

3 Blue giant hyssop
Agastache foeniculum

4 Wild bergamot
Monarda fistulosa

5 Garden nasturtium
Tropaeolum majus

6 Marigold
Tagetes sp.

*Let a few of your plants bloom: dill, basil, marjoram, mint, oregano, rosemary, thyme, etc.

 Perennial

 Edible flowers

 Suitable for containers

7 Pot marigold
Calendula officinalis

8 Cornflower
Centaurea cyanus

9 Coneflower
Echinacea sp.

10 Black-eyed Susan
Rudbeckie sp.

11 Common cosmos
Cosmos bipinnatus

12 White clover
Trifolium repens

Some rubeckies are annuals or biennials.

Note: Since a perennial does not overwinter well in a container, it can be grown as an annual.
